

Toebehoren

Draadfittingen messing vernikkeld

medium	perslucht, neutrale gasen en vloeistoffen
werkdrukken	150 bar (zie tabel)
temperaturen	-30°C / +150°C
materiaal	messing, vernikkeld

Een zeer breed pakket draadfittingen zal u helpen de aansluitingen en verlopen te maken, die u nodig heeft om uw machines af te bouwen of te onderhouden.

draadmaat	max werkdruk*
1/8"	150 bar
1/4"	100 bar
3/8"	75 bar
1/2"	50 bar
3/4"	85 bar
1"	80 bar

* houdt u bij artikelen met meerdere draden altijd de laagste werkdruk aan.

Of het nu voor perslucht is, water, olie of andere vloeistoffen, u kunt de draadfittingen tot hoge drukken inzetten. Voor voedingsmiddelen of chemicaliën kunt u gebruik maken van RVS fittingen, of vraag eventueel de speciale NSF kwaliteit aan voor een kostenbesparing.

Terugslagkleppen met draadaansluiting

De terugslagkleppen van Itap zijn robuust en geschikt voor een grote flow. Het verschil tussen de modellen Europa en York zit in de klep. De York-serie is uitgevoerd met een kunststof klep, bij de Europa-serie is deze klep van RVS304.
